

## Capabilities Statement

1. **Overview** Nobletech Solutions Inc. is a Service-Disabled Veteran-Owned Small Business with a GSA IT- 70 Schedule located in Huntsville, Alabama since 2013. We proudly serve our government and industry partners by providing comprehensive and professional software engineering and subject matter expertise in a variety of engineering disciplines.

**Our Mission** is to provide comprehensive and professional engineering solutions to develop products precisely to the customer's expectations by employing agile development processes for speed, accuracy, and risk reduction while serving with integrity.

**Our Vision** is to make people's lives better by providing a unique synthesis of innovation, technical, and programmatic solutions in a professional, ethical, and cost-effective manner.

## 2. **Services**

Nobletech Solutions provides comprehensive and professional engineering solutions to develop products precisely to the customer's expectations by employing agile development processes for speed, accuracy, and risk reduction while serving with integrity. Specifically, we provide a wide range of software development services and products including cloud-based solutions, custom software development for MS Windows, iOS, Android, web applications, data analytics/data dashboards using Tableau, and Power BI with great emphasis on creating easy to understand dashboards. Additionally, we offer verification and validation services including manual and automated testing, software and V&V documentation compliant with CMMI, IEEE, DoD, and NASA standards.

Our technical expertise coupled with our agile approach under defined processes results in *reduced risk at competitive costs*. Let us solve your challenges with cloud-based computing, custom applications, and data visualization as we have done for our customers.

Nobletech Solutions experience includes both consulting and development services to customers such as RDECOM, AMRDEC-S3I, PEO Aviation, and commercial programs. Our experienced staff collaborates closely with our customers to evaluate expected outcomes and meet deliveries.

We are committed to understanding the *leading-edge* technology while *implementing proven* technologies to manage risk, schedule, and cost.
